## DOCUMENTS NEEDED:

Closure Letter, and any conditional closure letter issued

Copy of most recent deed, including legal description, for all affected properties

Certified survey map or relevant portion of the recorded plat map (if referenced in the legal description ) for all affected properties

County Parcel ID number, if used for county, for all affected properties

**Location Map** which outlines all properties within contaminated site boundaries on USGS topographic map or plat map in sufficient detail to permit the parcels to be located easily (8.5x14" if paper copy). If groundwater standards are exceeded, the map must also include the location of all municipal and potable wells within 1200' of the site.

**Detailed Site Map(s)** for all affected properties, showing buildings, roads, property boundaries, contaminant sources, utility lines, monitoring wells and potable wells. (8.5x14", if paper copy) This map shall also show the location of all contaminated public streets, highway and railroad rights-of-way in relation to the source property and in relation to the boundaries of groundwater contamination exceeding ch. NR 140 ESs and soil contamination exceeding ch. NR 720 generic or SSRCLs.

**Tables of Latest Groundwater Analytical Results** (no shading or cross-hatching)

**Tables of Latest Soil Analytical Results** (no shading or cross-hatching)

**Isoconcentration map(s), if required for site investigation (SI)** (8.5x14" if paper copy). The isoconcentration map should have flow direction and extent of groundwater contamination defined. If not available, include the latest extent of contaminant plume map.

**GW: Table of water level elevations, with sampling dates, and free product noted if present**

**GW: Latest groundwater flow direction/monitoring well location map** (should be 2 maps if maximum variation in flow direction is greater than 20 degrees)

**SOIL: Latest horizontal extent of contamination exceeding generic or SSRCLs, with one contour**

**Geologic cross-sections, if required for SI.** (8.5x14" if paper copy)

**RP certified statement that legal descriptions are complete and accurate**

**Copies of off-source notification letters** (if applicable)

**Letter informing ROW owner of residual contamination** (if applicable)(public, highway or railroad ROW)

**Copy of (soil or land use) deed restriction(s) or deed notice if any required as a condition of closure**

Subject: Final Case Closure by Project Manager with Conditions Met  
New Horizons Cooperative Service Station, 720 Lincoln Avenue, Fennimore  
WDNR BRRTS# 03-22-001852

Dear Mr. Neal:

On May 29, 2003, your site, as described above, was reviewed for closure by the Department of Natural Resources. The Department reviews environmental remediation cases for compliance with state laws and standards to maintain consistency in the closure of these cases. On June 23, 2003, you were notified that conditional closure was granted to this case.

On August 29, 2003, the Department received correspondence indicating that you have complied with the conditions of closure. This office received documentation that monitoring and soil venting wells have been abandoned. This office also received confirmation that all investigative waste had been removed from the property. Based on the correspondence and data provided, it appears that your case has been remediated to Department standards in accordance with s. NR 726.05, Wis. Adm. Code. The Department considers this case closed and no further investigation, remediation or other action is required at this time.

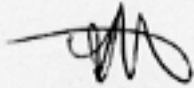

Your site will be listed on the DNR Remediation and Redevelopment GIS Registry of Closed Remediation Sites. Information that was submitted with your closure request application will be included on the registry. To review the sites on the GIS Registry web page, visit <http://gomapout.dnr.state.wi.us/org/at/et/geo/gwur/index.htm>

If there is equipment purchased with PECFA funds remaining at the site, contact the Commerce PECFA Program to determine the method for salvaging the equipment.

Please be aware that this case may be reopened pursuant to s. NR 726.09, Wis. Adm. Code, if additional information regarding site conditions indicates that contamination on or from the site poses a threat to public health, safety or welfare, or the environment.

The Department appreciates your efforts to restore the environment at this site. If you have any questions regarding this letter, please contact me at (608) 935-1948.

Sincerely,

A handwritten signature in black ink, appearing to read 'LH', with a long horizontal line extending to the left.

Subject: Conditional Case Closure  
New Horizons Cooperative Service Station, 720 Lincoln Avenue, Fennimore  
WDNR BRRTS# 03-22-001852

Dear Mr. Neal:

On May 29, 2003, the South Central Region Closure Committee reviewed your request for closure of the case described above. The Regional Closure Committee reviews environmental remediation cases for compliance with state rules and statutes to maintain consistency in the closure of these cases. After careful review of the closure request, the Closure Committee has determined that the petroleum-related contamination on the site from the location of the former underground storage tanks that were located in the property appears to have been investigated and remediated to the extent practicable under site conditions. Your case has been remediated to Department standards in accordance with s. NR 726.05, Wis. Adm. Code, and will be closed if the following conditions are satisfied:

**MONITORING WELL ABANDONMENT**

The monitoring wells and soil vapor extraction wells at the site must be properly abandoned in compliance with ch. NR 141, Wis. Adm. Code. Documentation of well abandonment must be submitted to me at the address above on Form 3300-5B found at [www.dnr.state.wi.us/org/water/dgw/gw/](http://www.dnr.state.wi.us/org/water/dgw/gw/) or provided by the Department of Natural Resources.

**WASTE AND SOIL PILE REMOVAL**

Based upon information contained in the file, I am not aware of any waste remaining on-site. However, any remaining waste and/or soil piles generated as part of site investigation or remediation activities must be removed from the site and disposed of or treated in accordance with Department of Natural Resources' rules. Please include a brief statement(s) when providing well abandonment logs demonstrating that any wastes have been properly addressed.

When the above conditions have been satisfied, please submit a letter to let me know that applicable conditions have been met, and your case will be closed. Your site will be listed on the DNR Remediation and Redevelopment GIS Registry of Closed Remediation Sites. Information that was submitted with your closure request application will be included on the registry. To review the sites on the GIS Registry web page, visit <http://gomapout.dnr.state.wi.us/org/at/et/geo/gwur/index.htm>

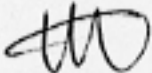

If this is a PECFA site, section 101.143, Wis. Stats., requires that PECFA claimants seeking reimbursement of interest costs, for sites with petroleum contamination, submit a final reimbursement claim within 120 days after they receive a closure letter on their site. For claims not received by the PECFA Program within 120 days of the date of this letter, interest costs after 60 days of the date of this letter will not be eligible for PECFA reimbursement.

Please be aware that the case may be reopened pursuant to s. NR 726.09, Wis. Adm. Code, if additional information regarding site conditions indicates that contamination on or from the site poses a threat to public health, safety, or welfare or to the environment.

We appreciate your efforts to restore the environment at this site. If you have any questions regarding this letter, please contact me at (608) 935-1948.

Sincerely,

Dear Ms. Hanefeld:

As required by the Department of Natural Resources to place the site on the GIS Registry of Contaminated sites, this letter shall serve as my statement that information regarding the legal description of the New Horizons Supply Cooperative, 720 Lincoln Avenue, for which I am the Responsible Party, is complete and accurate to the best of my knowledge. Attached is a copy of the deed for the New Horizons Supply Cooperative, 720 Lincoln Avenue property, which describes the property according to the Original Plat of the Village (now City) of Fennimore and a certified Survey Plat.

Sincerely,

David Neal
